

Brainstorming & Idea Prioritization

Objective

The objective of this phase is to identify, explore, and prioritize startup ideas that solve real-world problems and have strong market potential.

Brainstorming Process

Multiple startup domains including Healthcare, Education, Agriculture, FinTech, Sustainability, Travel, and E-commerce were explored. Ideas were evaluated based on innovation, feasibility, scalability, technical complexity, market demand, and social impact.

Idea Evaluation Criteria

Innovation, Problem Severity, Target Audience, Market Size, Technical Feasibility, Business Model, Competitive Advantage, AI Integration, and Future Scalability.

Final Selected Idea

LaunchPad AI was selected because it addresses a common problem faced by entrepreneurs: validating startup ideas before investing resources. The platform uses Google Gemini AI to generate startup scores, SWOT analysis, market insights, competitor analysis, and growth strategies.

Expected Outcome

A validated and well-prioritized project idea with clear objectives, measurable value, and implementation feasibility.
