

Empathy Map

Target User

Students, aspiring entrepreneurs, startup founders, innovators, and hackathon participants.

Says

'Is my startup idea good enough?' 'How do I know if people will use it?'

Thinks

Wants expert validation, worries about competition, funding, and business risks.

Does

Searches online, discusses ideas with friends, participates in hackathons, and builds prototypes.

Feels

Excited about innovation but uncertain about feasibility and market acceptance.

Pain Points

Lack of structured validation, limited mentorship, uncertainty in decision-making, and expensive consulting.

Gain

Quick AI-generated validation, SWOT analysis, market insights, growth strategies, and confidence before implementation.
